Operating Systems Support

Cinegy Traffic Gateway runs on the following operating systems: Windows Server 2012 R2, Windows 10.

Operating system recommendation: All of the above.

We recommend updating Windows OS to include the latest Microsoft updates and hotfixes.

Hardware Recommendations

Cinegy products work only on machines with CPU supporting minimum instruction set SSE4.1

Dual core processor with 2GHz or better (Core2Duo, Core i5). 2GB of RAM or better (4GB when using 64-bit OS). Gigabit Ethernet is recommended.
